How to Set Up a Guitar (Perfectly) | Electric Herald

The ideal setup is not one that obeys all the rules, but rather, one that makes a guitar comfortable to play and sound great for you. Your personal preferences in playability and sound quality should always override any rules and guidelines. That being said, the ideal guitar setup includes: strings that do not unwind and de-tune by themselves

Loosening the truss rod increases the curvature of the neck, tightening it makes the neck straighter. When set correctly, the neck should have a very slight concave curve to it, which our repairer measures by resting a long, metal straight-edge along the fretboard. Check for high frets.

Acoustic Guitar Set Up | A guide to the set up process

Remove the capo from the 1st fret and whilst looking at the side of the fingerboard on the bass side, place your small ruler behind the 6th string directly on the 12th fret. Measure the distance from the top of the 12th fret to the bottom of the 6th string. This gap should be from .085" to .093" (5.5/64" to 6/64").

Setting Up an Acoustic Guitar - Adirondack Guitar

Bookmark File PDF Guitar Setup Guide

Examine the headstock. This is the top of the guitar, where the strings are held on to the nuts for tuning. Note how the strings come off at the nut and wind around each tuner, especially how many times each wraps around. Lower strings, which are thicker, will wrap around fewer times.
