State the problem without implying a solution or blaming anyone, so that you can analyze it without any assumptions and build consensus around whatever solution you arrive at. One way is to state it in terms of a lack of a positive behavior, condition, or other factor, or the presence or size of a negative behavior, condition, or other factor.

~~Section 5. Analyzing Community Problems~~

812 Solutions of Selected Problems and Answers. For the direction (100) two bonds, the (111) and the $(1^{-1}1^{-1})$ have positive dot product with the vector (100) , while the other two, the $(^{-1}11)$ and the $(^{-1}1^{-1})$ have negative. Hence, two bonds are on the one side of the lattice plane (100) and the other two on the other side.

Problem-solution essays consider the problems of a particular situation, and give solutions to those problems. They are in some ways similar to cause and effect essays, especially in terms of structure (see below). Problem-solution essays are actually a sub-type of another type of essay, which has the following four components:
